yogasantoso.my.id | East Jakarta, Jakarta, Indonesia

SUMMARY

Software Engineer
Detail-oriented Software Engineer with 1 years of experience in building scalable web applications, RESTful APIs, and cloud solutions. Proficient in PHP (Laravel, Livewire), Python, JavaScript (React, Next.js, Vue.js), Java Spring, Golang, and Google Cloud Platform (GCP). Proven track record in leading cloud computing communities and capstone teams, architecting institutional research platforms, and optimizing high-traffic conference systems. Specialized in web application development, with additional experience as an AI research assistant, robotics researcher, and student mentor. Skilled in Agile software development practices and committed to delivering secure, efficient, and maintainable software solutions.

EDUCATION

Universitas Muhammadiyah Prof. Dr. Hamka | Jakarta, Indonesia 2022 - 2026
Bachelor of Engineering in Computer Science

- GPA: 3.68 / 4.00
- Relevant Coursework: Data Structures & Algorithms, Database Systems, Software Engineering, Cloud Computing, Web Development.

WORK & PROJECT EXPERIENCE

AI Research Assistant (Part-time) | Universitas Muhammadiyah Prof. Dr. Hamka
Jun 2026 – Present

- Support and optimize the entire artificial intelligence research lifecycle, from conducting comprehensive literature reviews to preparing complex datasets.

Student Mentor (Part-time) | Junge Leiter
Sep 2025 – Present

- Provided mentees with in-depth guidance on course completion strategies so they could graduate faster and on time.
- Guided students through strategic IT career roadmaps, maintaining high mentoring standards with a 98% satisfaction rate.

Facilitator | Google Cloud Arcade
Oct 2025 – Apr 2026

- Led and facilitated a learning community in exploring Google Cloud technologies through Google Cloud Skills Boost.
- Provided technical guidance, held discussion sessions, and kept participants motivated to ensure lab completion and badge acquisition.

Software Engineer (Project Based) | SIMAKIP UHAMKA (Academic Research System), Indonesia
Mar 2026 – Jun 2026

- Developed SIMAKIP UHAMKA from scratch as a centralized management platform supporting lecturers in the Tridharma of Higher Education, covering faculty research and community service proposals.
- Designed an optimized relational database schema in MySQL to manage complex review workflows, proposal lifecycles, and publication reports.
- Simplified the administrative process of research and community service programs.
- Applied Agile/Scrum methodology to iteratively deliver core modules based on university stakeholder feedback, achieving on-time project handover.

Robotics Researcher | FTII UHAMKA
Jun 2026

- As a research fellow in the FTII UHAMKA Robotics Community, contributed to the development of innovative robotics technology (C++, Arduino IDE) as a core team member representing UHAMKA at the 2022 Indonesian Special Robot Contest (KRSI) for the four-legged robot category.
- Conducted research on robot control systems and mechanics to ensure stable maneuvers across various terrains.

Software Engineer (Project-Based) | TEKNOKA 10 UHAMKA (National Conference Platform), Indonesia
Feb 2025 – May 2025

- Built web solutions for the 10th FTII UHAMKA TEKNOKA National Seminar, held annually since 2016, to broaden students' insight into digital technology innovation.

- Engineered advanced features to streamline participant registration, paper submission, and review tracking.
- Optimized web performance and database queries to handle high-traffic spikes from national academic participants and keynotes.
- Ensured high availability and zero downtime during peak registration periods, facilitating seamless research dissemination for FTII UHAMKA.

Library Assistant (Part-time) | FTII UHAMKA
Feb 2025 – Jun 2026

- Maintained academic integrity by checking students' papers for plagiarism using Turnitin.
- Assisted students with library administration required for graduation and provided technical guidance on proper academic citation.

Software Engineer (Part-time) | PKM CENTER FTII UHAMKA
Oct 2024 – Jun 2026

- Designed intuitive and responsive user interfaces using HTML, CSS, JavaScript, and Bootstrap as a Frontend Developer, ensuring cross-device usability.
- Collaborated with the backend team (Laravel, MySQL) to deliver seamless API integration while supporting student projects.

Cloud Computing Cohort & Capstone Project Manager | Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka, Indonesia
Feb 2024 – Jul 2024

- Mastered cloud concepts and Google Cloud Platform (GCP), built API endpoints, and implemented security best practices to deploy scalable applications.
- Led a cross-functional team of cloud, mobile, and machine learning engineers as Capstone Project Manager to build and deploy a cloud-native application on GCP.
- Architected scalable backend infrastructure and developed secure RESTful API endpoints utilizing Compute Engine, Cloud Run, and Cloud Storage.
- Implemented GCP Identity and Access Management (IAM) and API security best practices to protect application data against unauthorized access.
- Monitored cloud resource usage and optimized container deployments to enhance overall server performance and system stability.

Core Team Curriculum & Head of Cloud Computing Department | GDSC UHAMKA
Sep 2023 – Jun 2026

- Designed a Cloud Computing curriculum covering cloud architecture, Google Cloud services, and security.
- Organized local workshops, developed hands-on practical projects, and taught leadership skills while deepening cloud computing expertise.

SKILLS

Programming Languages: PHP, Python, JavaScript, Golang, Java, C++, SQL, Bash, HTML5/CSS3
Frameworks & Libraries: Laravel, Livewire, React.js, Next.js, Vue.js, Java Spring, .NET, Express, Node.js, Tailwind CSS, Bootstrap
Cloud & DevOps: Google Cloud Platform (GCP), AWS, Docker, Linux (Ubuntu/Debian), CI/CD
Databases & Tools: MySQL, Git/GitHub, Postman, RESTful APIs, API Testing, Arduino IDE, Ollama, Agile Methodologies
Research & Soft Skills: AI Research, Software Research, Vulnerability Research, Public Speaking, Mentoring

PROJECT

- **SIMAKIP UHAMKA |** simakip.uhamka.ac.id: Research, community service, and publication performance management information system with real-time proposal tracking, objective reviewer assessment, and an integrated publication catalog.
- **TEKNOKA 10 UHAMKA |** teknoka.uhamka.ac.id: Website for the 10th FTII UHAMKA TEKNOKA National Seminar, covering participant registration, paper submission, and review tracking.
- **Library UHAMKA |** library.uhamka.ac.id: Web-based digital library system (Laravel, modular architecture) managing book inventories, student borrowing records, and automated return tracking.
- **Large Language Model-Based Dewey Decimal Classification (DDC) System Using a Retrieval-Augmented Generation (RAG) Approach:** Automatic book classification system combining an LLM with retrieval-augmented generation.
- **Quadruped Robot Leg Kinematics:** Programmed kinematic angles in robot leg joints to stabilize the forward motion of quadruped robots.
- **Arca Domas SIPADUWITMI Website:** Website developed for the Arca Domas Thematic Village (Kampung Tematik Arca Domas), Bogor Regency.

PUBLICATIONS

- “Pengembangan Desa Edueko Wisata Melalui Pendampingan Terpadu Kampung Tematik Arca Domas, Kabupaten Bogor” (Development of an Edu-Ecotourism Village through Integrated Mentoring of the Arca Domas Thematic Village, Bogor Regency).
- “Programming Kinematic Angles in Robot Leg Joints to Stabilize Forward Motion of Quadruped Robots.”

INTELLECTUAL PROPERTY (HKI / COPYRIGHT)

- Web-Based Design and Development with Automatic Dewey Decimal Classification (DDC) Book Classification Feature Using a Large Language Model (LLM)
- SIPADUWITMI.
- Qossam-2: Computer Vision Teaching Aid for Colored Object Sensing on Moving Machines.
